

Capability Statement

About us

We are a fully Australian owned and operated drilling company, a company started, owned and managed by drillers.

Our industry experience and variety of different rigs and support equipment enables us to offer a more versatile and project specific solution to any project.

We are experienced in all aspects of drilling and in all areas of Australia. Our projects include drilling in limited access urban site, remote sites, over-water drilling, airport sites, defence sites, ports, service stations and residential lots.

Both Ben and Ryan are licensed drillers with extensive knowledge and experience in environmental, geotechnical and exploration drilling sectors.

Proactive Drilling Services has experienced steady growth over its 7 years of operation. Our service area has increased across three states; Queensland, New South Wales and the Northern Territory.

The drilling rigs, vehicles and other support equipment has been carefully selected to enable us to provide the most suitable equipment for a range of different project types.

Our team of Drillers boasts an impressive 40 years of experience in the industry – we are proud to say!

We're Pros, We're Active, We Drill!

Equipment - Drilling Rigs

Make	Model	Description	Rig Name
Comacchio	450-PI	Multi-purpose Geotechnical drilling rig	PDS37
Comacchio	450-PI	Multi-purpose Geotechnical drilling rig	PDS21
Hydropower	Scout MKV	Multi-purpose Geotechnical drilling rig	PDS33
Hanjin	D&B-08D	Multi-purpose Geotechnical drilling rig	PDS13
Geoprobe	7822DT	Environmental geoprobe drilling rig	PDS32
Geoprobe	7822DT	Environmental geoprobe drilling rig	PDS08
Geoprobe	7720DT	Environmental geoprobe drilling rig	PDS01
Geoprobe	7720DT	Environmental geoprobe drilling rig mounted on a 4x4	PDS11

Vacuum Excavators

Make	Model	Description	Rig Name
Vermeer	VX30-250D	Trailer mounted – 250 gallon spoil tank capacity	PDS31
Vermeer	VT250D	Trailer mounted – 250 gallon spoil tank capacity	PDS09
Vermeer	VSK-100D	Skid mounted – 100 gallon spoil tank capacity	PDS04

Air Compressors

Make	Model	Description	Rig Name
Sullair	375HH	Trailer mounted compressor	PDS17
Sullair	375HH	Skid mount compressor	PDS25

Drilling capabilities

We offer a complete range of drilling services. We are equipped, licensed and experienced in environmental drilling, geotechnical drilling, exploration drilling and water well drilling. Whatever the project, wherever the locations. You can have the confidence we will get the job done safely and efficiently.

Environmental Drilling and sampling

- Experienced in contaminated land drilling and sampling.
- Undisturbed Sampling
- Geoprobe Sampling
- Solid Stem Auger (150mm)
- Solid Stem Auger (200mm)
- Hollow Stem Auger (200mm)
- Hollow Stem Auger (250mm)
- Rotary Air Hammer
- Rotary Air Blade
- Tubex Case Advance Systems

Geotechnical drilling and sampling

- Wireline Coring; NQ3, HQ3 & PQ3
- Wash Boring
- NMLC Coring
- HMLC Coring
- Tubex Case Advance Systems
- Rotary Mud Case Advance Systems
- Angled Boreholes
- Orientation Tool
- SPT Sampling
- U Tube Sampling
- Packer Testing
- Piezometer Installation
- Inclinator Installation

Water Well & Gas Installation

We offer drilling and installation in all of the following;

- Water Monitoring Wells
- Landfill Gas Monitoring Wells
- Production water well
- De-watering bores
- Water supply bores
- Soil vapour wells
- Well developing

Additional Services

- Concrete coring – various sizes & extensions
- Bore maintenance, clean outs and well development
- Vacuum excavation – multiple units
- Test pitting and minor earthworks
